

## Theft on the rise in Southern District of San Francisco

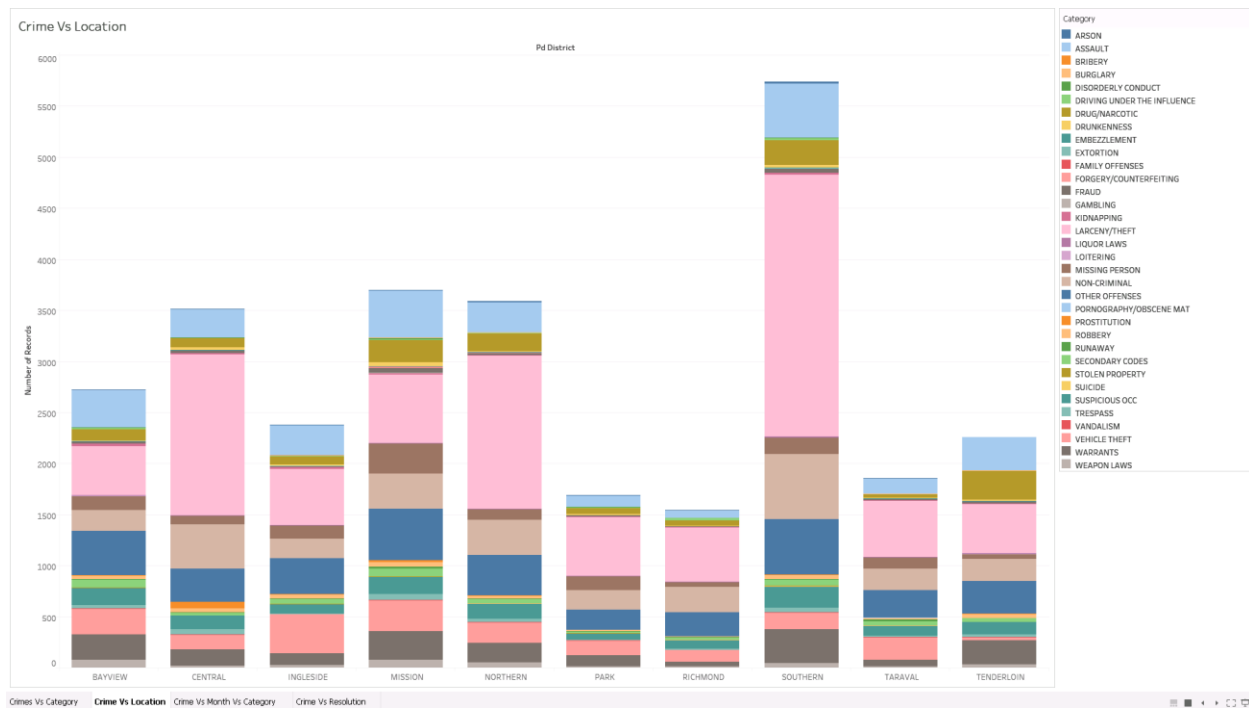

Amongst all the reported crimes in San Francisco, theft is the most frequent during summer of 2014. Out of the 28,994 reported incidents, 32.65% were theft or larceny (Visualization A). If we further break down the kinds of theft occurring, grand theft from locked auto tops the list with a 39.87%.

Visualization A

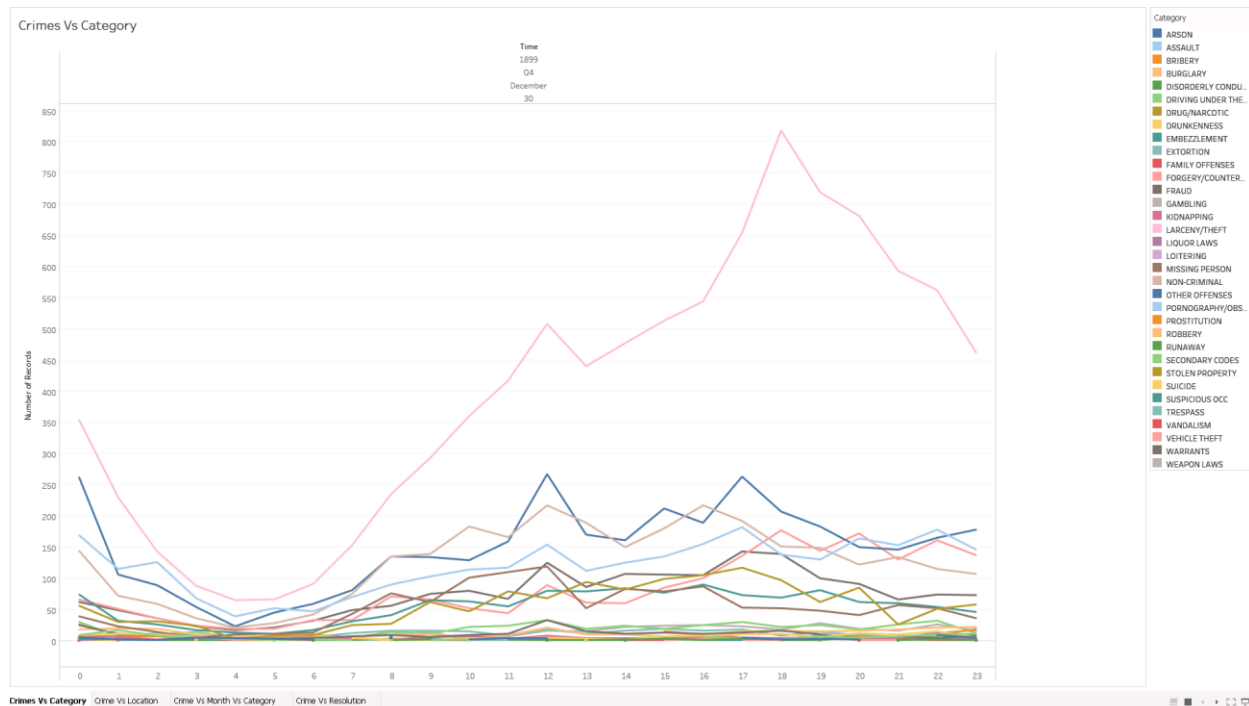

When San Francisco crimes were plotted against the districts, Southern District was on top with the most reported crimes in the region (Visualization B). 5,739 incidents occurred in the Southern District out of the 28,993 incidents. Northern and Mission came next with 3,589 and 3,700 incidents.

Southern district was also the top contributor of theft incidents in San Francisco crime report.

Visualization B

If we analyze the timings of the incidents, we see a peak between 5 PM and 7 PM, majority of which comes from the theft category (Visualization C).

Visualization C

Theft is not only the highest occurring crime in San Francisco, but it is increasing month on month (Visualization D). The peak reached in August where the percentage of theft increased from 29.65% in June to 35.35 % in August (Visualization E).
